

Our Trip to Salisbury Cathedral

On Wednesday 13th July we took some of the Owls on trip to Salisbury Cathedral. On our way to the cathedral we saw lots of exciting things. We saw a big blue crane and a yellow digger. We also met a traffic warden. She was very friendly and told us all about her job. We had a picture taken with her as well. When we got to the cathedral we saw lots of beautiful things. We especially liked the stunning stained glass windows. We sat with Hayley and tried to work out the stories in the windows. There were lots of angels in the windows. As we were walking around the cathedral we heard some music began to play. After having a good search around we found where the music was coming from, the Organ. The organ was very big and we all enjoyed listening to the lovely music. We also lit a very special candle. We all made a prayer as we lit the candle. The children decided to make a prayer for children that are less fortunate than they are. On our journey back on the bus we saw lots of farm animals out of the window. We all had such a lovely time and can't wait to go again.
