

Wise Owls Trip to Normanby Hall

On the bus the children were very observant, they shouted out with delight when they saw something interesting and when we saw lots of cars at the car shop on the way past. Rhys C was in the front and was talking to the driver asking him to drive carefully. When the driver got near to cars he would say "be careful Mister".

The Wise Owls all got very excited when they saw a large monkey too. At Normanby Park the children enjoyed looking around and were very pleased when they saw a peacock and some chickens. They like it so much they pretended to flap their wings and fly like birds. One of the peacocks was on a roof and the children laughed jovially at the peculiar site.

We also enjoyed looking at the ducks. Kerrie told them about boy and girl ducks and how you can tell them apart by their colours. "If they are brown then they are girls and if they have green heads they are boys" she explained.

The children loved running through the woods and walking over the bridges. We all took extra care when crossing the bridges to prevent from ourselves falling in the water. They collected some leaves, twigs and flowers in nappy sacks as we had no bags so we could do a picture of what we found.

Rhys and Corey were very interested in looking at the reindeer so we spent a long time in the reindeer area. The children asked questions and described what the reindeers looked like.

At the toilet at the end the children had 10 minutes in the park where we waited for the bus to return. They were very excited Megan counted down the days until we went.

On the way back some of the children had a little nap. Tyla in particular was fast asleep for the whole journey.

And some of us just started to fall as we as we got back I sent out little notes to encourage children that we weren't in on that day to come. Only Caitlyn could make it
