

Owls Big Bug Hunt

Thursday 18th August 2011

Today we went on a big bug hunt, we were all very excited. We put on our shoes and our nursery jackets and lined up beautifully at the door. We set off on our journey to the field looking out for some bugs on the way. We all walked very nicely holding on to each other's hands. We walked all the way down to the field but when we came to the road we had to stop, look and listen for cars to make sure it was safe to cross. We crossed the road and then we were there.

We all got down on our knees and looked for bugs in the grass. We found lots of ladybirds and put them in our tub that we took with us. Michelle found a huge bumblebee and she tried to get a picture but it flew away and landed on a flower, Michelle then took a beautiful picture of it.

We all went to have a look in the bushes and we saw a huge spider. He was a bit shy and played hide and seek.

Before we came back to nursery we all sat down and Vicki gave us all a ladybird each. They tickled our hands and arms and made us giggle. We held them until they flew away. Once all the ladybirds had flown away we set off back to nursery. As we started walk we spotted a large Moth on the grass, he had a poorly wing. Michelle took a picture so we could show our friends at nursery.

We then walked back to nursery after our Bug Hunt adventure.
