

Library with the Wise Owls

Tuesday 8th November 2011

Children from the Wise Owl room in Scunthorpe had lots of fun looking at the story books and even some factual books in the local library. Daisie enjoyed looking at the stories with nice illustrations inside. Daniel P took pleasure in sitting at the table to draw a brilliant picture inspired from one of the books he had looked at.

When the children had finished reading they tidied up the books putting the back where they came from using the colour system on the bottom of the books.

They were all very excited about taking some of the books back to nursery. They each chose their favourite book and helped Kerrie to check them out. We put all the books in a bag ready to walk home. The bag was very heavy with the weight of the books in it. The staff had sore arms by the time we got back to nursery but it was worth seeing the children's excitement. They couldn't wait to start reading them.

The children walked very well to the library and back so they were all given lots of praise. The children have been reading the books at nursery and are taking great care to keep them in good condition; we all understand the importance of treating other people's belongings with courtesy and respect.
