

Pre-School Baking Morning

Children who took part were Carey, Adam, Caitlyn, Hayden, Rhys and Grace B.

The children were very excited about making biscuits together. They all came in and washed their hands and put aprons on to keep their clothes clean. We sat down at the table, which had a mixing bowl, wooden spoon, weighing scales and a baking tray on it. Before starting the children discussed the equipment and ingredients with Hayley and Leza. The children were very focused on the activity and really enjoyed mixing and pouring in the ingredients in to the mixing bowl. We made sure that everyone contributed so we took it in turns to stir the mixture.

The children particularly liked using the rolling pin to flatten out the mixture ready for cutting. All the children enjoyed using the cutters. The cutters were in different shapes, one was a little man and another was star shaped, which made us think of the song *twinkle, twinkle little star*. The children added raisins for eyes and a nose so they looked extremely yummy and smelt delicious when they were all cooked. The children were very excited about tasting them and showing our Mummy's and Daddies what a good cook they were. Later on that day the children were playing with the bowls and spoons and recreating their cooking experiences using play dough. We had so much fun!
:-)
